

Zone 5: Tarmac Games

Four Square Beginner

Equipment: 1 medium sized ball

Number of players: 4 - with a line of players waiting a turn

How to play:

Stand on four square tarmac area, or draw a large square with chalk and divide it into 4 smaller squares. Each player stands in a square. Choose a subject such as colors, animals, names, movies or provinces.

(example here will be colors.)

The player with the ball calls out a color and then bounces the ball to any other square. The player in that square catches it, then does the same. The ball bounces from square to square...but players must not repeat words! If a player misses a catch or cannot think of a word, the next player waiting in line steps into his square. The new player can dash in quickly to keep the game going, or a new game can start with a new category.
