

## Zone 9: Snow Fun Games

### Snow Angel Tag

**Age:** 5 & up

**Equipment:** Pylons or markers

**Number of players:** 4 or more

#### How to play:

First determine the boundaries and mark them off with pylons or some other kind of marker.

Choose a player or two, depending on the number of players playing, to be **'it'**.

The rest of the players try to stay away from the taggers. If players are tagged they must lay down on the ground and make a snow angel. Once they get back up they are **'frozen'** on that spot until the game is finished. They cannot move their feet but they can assist in tagging other players as they run by.

The last player or couple of players to be tagged become the **'its'** for the next game.

Variation(s): Try this relay on snowshoes for even more of a challenge.
