

Zone 4: Hopscotch

Regular Hopscotch

Equipment: Chalk or painted outline
beanbags or other markers

Number: 2 - 10

How to play:

The first player stands at the bottom of the pattern and throws her marker into the first square. Player must hop over the marker, through to the end of the pattern, then return and pick up the marker before hopping in its square. If player steps on a line, or misses the square, player is out. If successful, player throws marker into each square in succession, always hopping over the marked square on the way up, and picking it up on the way back.
